

DETOX PROJECT 2017 PROGRESS

In 2017, as in previous years, **ITALTEXTIL SARATA SRL**'s DETOX commitment was strategic in the performance of all production activities.

Several internal investigations have been carried out with the involvement of our suppliers to advance in the path of eliminating hazardous chemicals in the textile supply chain and to improve waste management.

PFCs Elimination	<ul style="list-style-type: none">● Investigation on the use of PFCs (water/stain-proofing) in our supply chain and our products● Report publishing
Hazardous Chemicals Elimination	<ul style="list-style-type: none">● Test planning● Supply chain Monitoring● Report publishing
Extended Producer Responsibility	<ul style="list-style-type: none">● Analysis of the potential economic value of our waste and on closed loops management● Report publishing

Efforts will continue in 2018, focusing mainly on the elimination of hazardous chemicals and on EPR-Extended Producer Responsibility and recycling.
